Life Service Band is the name given to the group of girls who are Student Volunteers, and to those who are deeply interested in living a full life of Christian service. On Sunday afternoons this group meets to discuss books, affairs in other countries, conditions here at home, and problems which college girls face; mission study is especially emphasized. Deputations are sent to colleges and churches, and delegates are sent to the annual North Carolina Student Volunteer Conference.

P. K. Club

Yes, we're the "Preachers' Kids"—the bunch upon whom the eagle eye is always focused. Our doings and not doings are the subject of many an afternoon chat among our dear neighbors. We must be little "goody-goodies." Just ask any of our fellow students here at D. C., and you'll find out what fine people we really are. We are the only ones who can ever hope to belong to this exclusive club. Do we have a good time? Yes, but we try to be true to dear old Dad, too. Here's to all P. K.'s and the dear Old Folks at Home.

Chem Bo Mat

Chem Bo Mat, the scientific club, is composed of those students who make and keep exceptionally high averages in mathematics, biology, and chemistry. The students who are eligible for membership meet once each month to hold informal discussions on scientific subjects which prove of interest to the members; thus they broaden the scope of their information beyond that of the classroom. Following each meeting is a social hour, which helps to create a feeling of fellowship among students and teachers.

Home Economics Club

The Home Economics Club is made up of a group of selected students, each of whom is interested in some phase of home economics. Its purpose is to stimulate interest in the field of home economics, to develop an appreciation of home-making, to inform the girls of the opportunities offered by home economics as a profession, to establish a land of friendship among girls taking the same kind of work, and to create an interest in home economics on the part of the public.

Le Cercle Francais

Advanced students in the French Department and Freshmen with satisfactory scholastic ratings are eligible to membership in Le Cercle Français. The club programs are based on interesting things taken from French customs, art, music and literature. Through the program and through the social hours an opportunity is presented for gaining a wider knowledge of the country and its people—and for gaining more facility in the use of the language itself.

La Tertulia

The advanced class and honor students of the beginning class in the Spanish Department meet once a month in their Tertulia—or social gathering. At these social gatherings, programs based on Spanish life, art, music, and drama are presented by the girls. The club is extremely fortunate in having as one of its members Justina Bernard, who, having been reared in Cuba, helps to make the customs of a Spanish-speaking country more vivid to the other members. La Tertulia then gives the girls a chance to investigate things of interest in the field, for which there is not sufficient time during the class periods.

The Glee Club, with a membership selected from all departments of the college, is under the direction of the head of the Voice Department. This club meets twice a week. At these rehearsals carefully studied part songs and other concerted work for women's voices are studied. The club sings at the various churches of the city during the year and at many of the college entertainments and programs.

Allegro Club

Those who are members of the Allegro Club are especially interested in the understanding and appreciation of good music. In its regular monthly meetings, a study is made of the lives and works of important composers, the music of various countries, and items of interest in the musical world. The musical talent of the members of the club makes possible the rendering of numbers in keeping with the theme of the program.

The club is known for the high-type drama which it presents and the enthusiasm with which it approached all dramatic activities in the town and on the college hill. The membership of the Masquers is limited to fifteen members, who are chosen through a competitive try-out.

Le Cercle Francais de Petites Enfants

In two respects is this the "Baby French Club." In the first place, it was organized only this year, and in the second place, the club is composed of the French students in the High School Department. Programs and social hours based on various aspects of French culture help the girls to get a more human idea of the country whose language they are studying in the classroom. The club, though small of necessity, is enthusiastically attended and is rapidly taking its place among the larger clubs on the campus.

Athletic Association

For membership in the Athletic Association, one must make one hundred points. Points are obtained by participation in one or all forms of athletics offered at Davenport. These include volley ball, basketball, baseball, tennis, and hiking. The Association stands for the qualities that wholesome sports in a school help to create—loyalty, determination and good sportsmanship. It greatly adds to that important thing—school spirit. Each year the Association goes on hikes and picnics—two words which mean fun and good things to eat.

Dirosa Club

The Dirosa Club meets every two weeks. Its aim is fun for the dining room "despots." The whole school is interested in their business, for they decided just exactly where each girl shall sit in the dining room, and how much she'll get to eat. A peep into their meetings would make you envious. The program is usually comical, and Dirosa girls know how to make generous, luscious refreshments. In their sisterhood is included their beloved sponsor, Mrs. French, who is indeed a true ally and friend.

ENGRAVINGS

IN THIS ANNUAL BY

The Charlotte Engraving Co.

CHARLOTTE, N. C.

What is an annual?

. . . to some . . . just another printing order.
. . . to us an opportunity to record history in its making . . . for an annual is a history of the school for the year in which it is published.

It is made today for its value tomorrow, to bring back to mind the happy memories of school days.

And with a keen appreciation of this future value, coupled with the experience of more than thirty years, we work closely with, and for, the school that the annual may be a complete, interesting history.

It may be next term . . . or a few years away in college . . . but when your thoughts turn to the publication of an annual may we have the opportunity of telling you more of the service we can render.
